

## Rolling Shutters Benefits:

Enclose large openings with a single shutter

Flexible installation options

Allow light and air flow

Increased security

Track covers hide all installation fasteners

Quick assembly

Durable finish in four colours - white, ivory, beige and bronze

Increased strength provides peace of mind

## Quality & Reliability

SuperNova Rolling Hurricane Shutters are permanently affixed structures that only need to be installed once. SuperNova Shutters are tested and approved for use in the HVHZ. Designed for extreme weather protection, these shutters are certified to resist impacts from Category 5 hurricane winds exceeding 157 MPH. The state-of-the-art SuperNova shutter system surpasses the stringent Florida state code for hurricane protection, ensuring your safety in even the most severe tropical storms.

## ROLLING SHUTTERS

Our Supernova rolling shutters offer hurricane protection. They provide your home/business with safety, security, and savings with a reliable and user-friendly product.

# SuperNova Rolling shutters

SuperNova leads the industry in producing top-tier hurricane shutters, whether rolling or fixed. We meticulously select our suppliers to guarantee that all materials and components meet the highest standards. Manufactured in the United States, we maintain full control over the quality of every product.
